Supplemental cash flow information - Note 10

1. Nature and Continuance of Operations

Alpha Gold Corp. (the "Company") was incorporated under the laws of British Columbia, Canada on February 25, 1985. The Company is primarily engaged in the acquisition, exploration and development of mineral properties located in Canada.

The Company's corporate office and principal place of business is 410 Donald Street, Coquitlam, British Columbia, Canada.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that any of the Company's current or future exploration programs will result in profitable mining operations. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete their exploration and development, and establish future profitable operations, or realize proceeds from their sale. The carrying value of the Company's mineral properties does not reflect present or future value.

These condensed interim financial statements were prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at November 30, 2012, the Company had working capital of \$250,832 (February 29, 2012 - \$403,057). The Company incurred a net loss of \$128,771 for the nine months ended November 30, 2012 (August 31, 2011 - \$116,411) and had an accumulated deficit of \$6,909,201 as at November 30, 2012 (February 29, 2011 - \$6,780,430).

The Company has relied mainly upon the issuance of share capital to finance its activities. Future capital requirements will depend on many factors including the Company's ability to execute its business plan. The Company will be required to issue share capital to finance its future activities through private placements and the exercise of options and warrants and is actively seeking additional equity financing. There can be no assurance that such financing will be available to the Company. Inability to secure future financing would have a material adverse effect on the Company's business, results of operations and financial condition.

These condensed interim financial statements do not include the adjustments to assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

2. Basis of preparation

These condensed interim financial statements were prepared in accordance with International Accounting Standards 34: *Interim Financial Reporting* on a historical cost basis using the accrual basis of accounting, except for cash flow information and financial instruments measured at fair value. They do not include all of the information required for full annual financial statements and should be read in conjunction with the Company's audited annual financial statements for the year ended February 29, 2012.

2. Basis of Preparation, continued

The same accounting policies are used in the preparation of these condensed interim financial statements as for the most recent audited annual financial statements and reflect all the adjustments necessary for fair presentation in accordance with International Financial Reporting Standards (“IFRS”) of the results for the interim periods presented.

The Company’s functional and presentation currency is the Canadian dollar.

Certain prior year’s comparative figures have been reclassified to conform to the presentation adopted in the current year.

These condensed interim financial statements were authorized for issue by the Board of Directors on January 28, 2013.

3. Mineral Properties

	November 30, 2012	February 29, 2012
Acquisition costs	\$513,682	\$513,682
Deferred expenditures	11,271,292	11,252,454
	<u>\$11,784,974</u>	<u>\$11,766,136</u>

a) Lustdust Claims

- i) On July 15, 1989, the Company acquired a 100% interest in certain mineral claims located in the Omineca Mining Division, British Columbia for cash of \$170,000. The vendor retains a 3% net smelter return royalty (“NSR”).
- ii) On February 21, 1992, the Company acquired a 100% interest in certain mineral claims located in the Omineca Mining Division, British Columbia for \$100,000 cash and 200,000 shares of the company at a deemed consideration of \$0.60 each (previously subject to a 5% net profit interest to a maximum of \$100,000 and a 2% NSR). In July 2003, the company acquired the retained “5% net profit interest and the 2% NSR” for \$150,000 cash.
- iii) The Company’s Lustdust Property is currently comprised of 20 “cell” claims, 100% owned by Alpha Gold Corp. Ownership is currently secured through 2021 and/or 2022. There is no requirement for NSR or Royalties on any of these claims.

5. Share Capital

a) Authorized

The August 2012 annual general meeting resulted in shareholder approval to increase the authorized capital of the Company from 100,000,000 Common Shares without par value unlimited number of Common Shares without par value.

b) Share issuances

There were no share issuances during the current period or during the year ended February 29, 2012.

c) Share purchase warrants

Warrant transactions for the respective years are summarized as follows:

	Number of warrants	Exercise price
Balance, February 28, 2011	10,417,887	\$ 0.25-0.35
Warrants issued	-	\$ -
Balance, February 29, 2012		
Warrants expired	(10,417,887)	\$ 0.25-0.35
November 30, 2012	Nil	

d) Stock options

The Company has established a fixed share purchase option plan whereby the board of directors may, from time to time, grant options to directors, officers, consultants, or service providers to the Company. The maximum aggregate number of Plan Shares that may be reserved for issuance under the Plan at any point in time is 9,447,340 Shares, less any Common Shares reserved for issuance under share options granted under Share Compensation Arrangements other than the Plan, unless the Plan is amended pursuant to the requirements of the TSX Venture Policies at the award date. Options granted under the Plan may have a maximum term of ten years. The exercise price of an option may not be less than the closing price on the Exchange on the last trading day preceding the grant.

Notes to the Condensed Interim Financial Statements
For the Nine Months Ended November 30, 2012 and 2011
Expressed in Canadian dollars, Unaudited

5. Share Capital, continued

d) Stock options, continued

	Number of options	Weighted average exercise price
Balance, February 28, 2011	4,322,222	\$ 0.14
Options granted	1,000,000	0.10
Options forfeited	(500,000)	(0.13)
Balance, February 29, 2012 and	4,822,222	0.13
Options forfeited	(622,222)	0.09
Balance November 30, 2012	4,200,000	\$0.13

A summary of the Company's options outstanding at August 31, 2012 are as follows:

Number of options outstanding	Number of options exercisable	\$ per share	Expiry date
1,450,000	1,450,000	\$ 0.20	July 20, 2014
1,750,000	1,750,000	\$ 0.10	July 23, 2015
1,000,000	1,000,000	\$ 0.10	May 30, 2016

e) Share-based Payments

During the period ended November 30, 2012, the Company did not grant any stock options to directors, officers, employees and consultants of the Company.

During the period ended November 30, 2011, the Company granted 1,000,000 stock options to directors, officers, consultants, and service providers to the Company. The fair value of stock options granted of \$0.04 was estimated using the Black-Scholes option-pricing model with the following weighted average assumptions: Dividend yield Nil, expected volatility 119%; risk-free interest rate 2.32%; and weighted average life of 5 years.

Based on the fair values for the options vested during the period, compensation expense of \$2,372 (2011 – \$50,286) was recorded in operations for the period, and credited to contributed surplus.

Alpha Gold Corp.
(Exploration Stage Company)
Notes to the Condensed Interim Financial Statements
For the Nine Months Ended November 30, 2012 and 2011
Expressed in Canadian dollars, Unaudited

6. Related Party Transactions

During the period, the Company paid fees of \$33,735 (2011 - \$85,027) for contract negotiation, property investigation, property acquisition, site investigation and management of program, \$3,000 (2011 - \$9,500) for directors fees, \$31,500 (2011 - \$31,500) for secretarial and bookkeeping services, \$Nil (2011 - \$2,250) for share holder relations and \$4,500 (2011 - \$4,500) for office rental, and \$2,372 (2011 - \$65,486) in share-based payments, to directors and officers of the Company or companies controlled by directors of the Company.

All related party transactions in the normal course of business have been measured at the agreed upon exchange amounts, which is the amount of consideration established and agreed to by the related parties.

The key management personnel of the Company are the directors and officers of the Company. The Company has no long-term employee benefits or post-employment benefits and compensation awarded to key management during the nine months ended November 30, 2012 was as follows:

	Period Ended November 30,	
	2012	2011
Consulting	\$ 68,235	\$ 128,277
Share base payments	2,372	65,486
Total	\$ 70,607	\$ 193,763

7. Capital Management

The Company includes cash and cash equivalents and equity, comprising of issued common shares, contributed surplus and deficit, in the definition of capital.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The property in which the Company currently has an interest is in the exploration stage; as such the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the period ended August 31, 2012. The Company is not subject to externally-imposed capital requirements.

Alpha Gold Corp.
(Exploration Stage Company)
Notes to the Condensed Interim Financial Statements
For the Nine Months Ended November 30, 2012 and 2011
Expressed in Canadian dollars, Unaudited

8. Financial Instruments

All financial instruments measured at fair value are categorized into a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are described below:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table sets forth the Company's financial assets measured at fair value by level within the fair value hierarchy:

November 30, 2012	Level 1	Level 2	Level 3	Total
Assets:				
Cash and cash equivalents	\$237,408	-	-	\$237,408
Reclamation bond	30,000	-	-	30,000
	\$267,408	-	-	\$267,408

February 29, 2012	Level 1	Level 2	Level 3	Total
Assets:				
Cash and cash equivalents	\$424,683	-	-	\$424,683
Reclamation bond	30,000	-	-	30,000
	\$454,683	-	-	\$454,683

8. Financial Instruments- continued

The Company holds various forms of financial instruments. The nature of these instruments and the Company's operations expose the Company to concentration risk, credit risk, currency risk and price risk. The Company manages its exposure to these risks by operating in a manner that minimizes its exposure to the extent practical. The types of risk exposure and the way in which such exposures are managed are as follows:

Credit Risk - The Company's credit risk is primarily attributable to its liquid financial assets. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and equivalents with high-credit quality financial institutions. The Company does not have financial assets that are invested in asset backed commercial paper.

Liquidity Risk - The Company ensures that there is sufficient capital in order to meet short term business requirements, after taking into account cash flows from operations and the Company's holdings of cash and cash equivalents. The Company believes that these sources will be sufficient to cover the likely short and long term cash requirements. The Company's cash is invested in business accounts with quality financial institutions and which is available on demand for the Company's programs.

Market Risk - The significant market risk exposures to which the Company is exposed are interest rate risk and commodity price risk. For the period ended August 31, 2012, 1% fluctuation in interest rates up or down would have an immaterial impact on the financial statements of the Company.

Interest rate risk - In respect to the Company's financial assets, the interest rate mainly arises from the interest rate impact on our cash and cash equivalents and reclamation deposits.

Commodity price risk - The value of the Company's mineral resource properties is related to the price of various commodities and the outlook for them. Commodity prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control, including, but not limited to, industrial retail demand, central bank lending, forward sales by producers and speculators, level of worldwide production and short-term changes in supply and demand.

9. Segmented Information

The Company reports segmented information based on its operating and geographic segments. The Company's operations are primarily directed towards the acquisition, exploration, and ultimate development of gold and other precious metals with regard to mineral properties held in British Columbia, Canada.
